

# Manual Supplement

Manual Title: A40B Instruction Manual	Supplement Issue: 1
Print Date: July 2008	Issue Date: 6/16
Revision/Date: 2, 11/15	Page Count: 1

---

---

This supplement contains information necessary to ensure the accuracy of the above manual.  
This manual is distributed as an electronic manual on the following CD-ROM:

CD Title:	A40B
CD Rev. & Date:	2, 11/15
CD PN:	3356284

## Change #1, 485

On page 5, replace note 4 with:

[4] 1 mA specifications apply with the battery charger disconnected and in an environment with minimal electromagnetic interference. Radiated electromagnetic fields of 1 V/m at frequencies above 80 MHz may significantly degrade specified performance.

On page 9, prior to **Preparing for Operation**, add the following:

### Electromagnetic Compatibility (EMC)

International..... IEC 61326-1 Controlled Electromagnetic Environment

CISPR 11: Group 1, Class A

*Group 1: Equipment has intentionally generated and/or uses conductively-coupled radio frequency energy that is necessary for the internal function of the equipment itself.*

*Class A: Equipment is suitable for use in all establishments other than domestic and those directly connected to a low-voltage power supply network that supplies buildings used for domestic purposes. There may be potential difficulties in ensuring electromagnetic compatibility in other environments due to conducted and radiated disturbances.*

*Emissions that exceed the levels required by CISPR 11 can occur when the equipment is connected to a test object.*

Korea (KCC)..... Class A Equipment (Industrial Broadcasting & Communication Equipment)

*Class A: Equipment meets requirements for industrial electromagnetic wave equipment and the seller or user should take notice of it. This equipment is intended for use in business environments and not to be used in homes.*

USA (FCC) ..... 47 CFR 15 subpart B. This product is considered an exempt device per clause 15.103.
