

Instrument Security Procedures

Model:

Fluke 9510, 9530, 9550, 9560

Product Name:

9510, 9530, 9550, 9560 Active Heads

Instrument Description:

9510: Active Head with 1.1 GHz and 500 ps pulse capability

9530: Active Head with 3.2 GHz and 150 ps / 500 ps pulse capability

9550: Active Head with 25 ps pulse capability

9560: Active Head with 6 GHz and 70 ps pulse capability

Memory Description:

These active heads use a EEPROM 16 kB memory device. This contains calibration constants and factory data such as the serial number.

Memory Cleaning Instructions:

The memory is programmed at the manufacturer and cannot be cleared.

Note

These Active Heads can only be used with the Fluke 9500/9500B. Also see the 9500/9500B Statement of Memory Volatility.
