

MET/TEAM 3.0.0 HOT-FIX README

This document includes a list of updates included in the MET/TEAM 3.0.0 Hot-Fix.

Note: This Hot-Fix only applies to MET/TEAM version 3.0.0. Do not attempt to apply this update to any other version of MET/TEAM!

Refer to the table below for a list of issues that are resolved by this Hot-Fix.

APPLYING HOT-FIX TO MET/TEAM VERSION 3.0.0

To apply this Hot-Fix, it will be necessary to shut down MET/TEAM. Also, if you use MET/TEAM Mobile, it is recommended that all mobile workstations be checked in prior to performing the update. For these reasons, plan to do this at a time that is least impactful for your organization.

1. On the MET/TEAM server, open Internet Information Services (IIS)
2. In the **Sites** node in the left pane, locate and select the **METTEAM** website node.
3. In the right pane under **Manage Website**, click **Stop**.
4. If you have installed MET/TEAM Customer Portal, repeat steps 2-3 for the **METTEAM Customer Portal** website.
5. Extract the files from the Hot-Fix archive.
6. Using File Explorer, navigate to the folder for the MET/TEAM website (typically C:\inetpub\wwwroot\METTEAM).
7. Copy the **MetTeam.dll** file that was extracted from the Hot-Fix archive to the **\bin** sub-folder, replacing the existing file.
8. Copy the **all-compiled.js**, **all-compiled.js.map**, **ext-all-debug.js**, **site-compiled.js** and **site-compiled.js.map** files that were extracted from the Hot-Fix archive to the **\Scripts** sub-folder, replacing the existing files.
9. If you updated from a previous version of MET/TEAM, copy the **ReportUpdateTool.exe** file that was extracted from the Hot-Fix archive to the **C:\Program Files (x86)\Fluke\Report Update Tool** folder, replacing the existing file.
10. If you have installed MET/TEAM Customer Portal, repeat steps 7-8 for the **METTEAM Customer Portal** website (typically installed to C:\inetpub\wwwroot\CustomerPortal).
11. Using IIS, in the **Sites** node in the left pane, locate and select the **METTEAM** website node.
12. In the right pane under **Manage Website**, click **Start**.
13. If you have installed MET/TEAM Customer Portal, repeat steps 11-12 for the **METTEAM Customer Portal** website.
14. Open MET/TEAM, log in and select the **Help > About** menu item.
15. On the bottom left of the **About MET/TEAM** screen, verify the version number indicates **Version 3.0.0.4**.

MET/TEAM 3.0.0 HOT-FIX CHANGES

Key	Issue Type	Description
MTM-3288	FIXED	Addressed an issue where values selected from drop-downs may yield the wrong casing and erroneously get flagged as an invalid entry.
MTM-3254	FIXED	Resolved a Report Update Tool issue that didn't account for single quotes around the braces used for comparing GUID fields and GUID Parameters.
MTM-3245	FIXED	Addressed an issue where Manual Template entries of type Text may erroneously get rounded to a whole number.
